EUROPEAN  
AGEING  
NETWORK

former EDE|EAHSA

EUROPEAN  
AGEING  
NETWORK

former EDE|EAHSA

# Implications

1. With clients
2. Quality of life
3. Social support and services
4. For the entire life of elderly people
5. Economic opportunities
6. Integrated networks

# Subject areas

- **Future of ageing**
- **Future of senior services and care systems**
- **Future of senior services and care concepts**
- **Future of management and organisations**

# Challenges

- **Overcoming impending staff shortages**
- **Increasing financial sustainability**
- **From care to prevention and ‘inclusion’**
- **From quality of care to ‘quality of life’**
- **From institutional to ‘home’**
- **From professional to ‘co-creation with family’**
- **From a medical focus to a ‘social and service approach’**
- **From system dominance to ‘client focus’**
- **Shift from staff to ‘staff and technology’**
