that 45% of American investors retiring at age 65 are at risk of running out of money during retirement, with experts saying a lack of tax preparation and high medical costs are two common issues that can drain retirees' funds. Another valuable upside to including life insurance as a part of retirement planning is the **long-term care** benefits it can provide. Certain life insurance policies offer riders that allow policyholders to draw on their death benefits to cover long-term care costs. In some cases, the benefits provided for long-term care are tax-free. The Downsides Of Life Insurance In Retirement Planning Cost is the most glaring downside to

who was at the announcement. Advertisement Advertisement Advertisement SLED rescued more than 200 dogs last year. A new law allowed for their quicker adoption. Once they are cared for, they often find homes and live out a normal life, McMaster said. Until last year, the cost of prosecuting animal fighting rings and the **long-term care** of their victims allowed abusers to escape paying for their crimes. As these cases dragged on, potentially for years, the costs fell on taxpayers. The dogs couldn't be adopted until the criminal charges were resolved. That changed with a law dubbed the "cost of care" act, which McMaster signed last May after both chamb

ip builds loyalty. Empathetic Questions To Ask - "What's been weighing on you lately?" It encourages vulnerability and helps you better understand emotional roadblocks. - "Is there anything I can take off your plate?" This question demonstrates support. - "What would make work feel more sustainable for you?" It signals **long-term care** , not just short-term output. Empathetic Statements To Say - "I may not have the perfect solution, but I'm here to listen." This acknowledges your limits while offering presence and support. - "Take the time you need. We've got this." It promotes a culture of rest and trust without guilt. - "You're not alone in this. Le
