

## E.D.E. Vision 14

This is the 14<sup>th</sup> edition of the electronic Newsletter of the E.D.E.: E.D.E. VISION.

This newsletter will inform you about the current developments within the European care centres and in particular about the position of directors/managers. The E.D.E. also intends to adopt a position on real issues in European politics in the context of care for the elderly. E.D.E. VISION's primary purpose is however to inform you about projects of the E.D.E. and its member countries.

Prof. Dr. Wilfried Schlüter

The fact that the newsletter is published electronically makes it readily accessible and enables national associations to pass the contents on to their members.

Editor: Wim Schepers

## Challenge your Region on its approach to an ageing population!

The E.D.E. (represented by Angela Cluzel) and other partners from AGE Platform were invited to a European event «JOINT PUBLIC HEARING» organised by the Committee of Regions on 9 December 2008 in Brussels. The topic was "Longer and Healthier Lives – a Challenge for Local and Regional Authorities". Sven Matzke from the DG Employment and Social Affairs presented the 2<sup>nd</sup> European Demography Report and outlined five key policy directions: promoting a demographic renewal, promoting the employment, promoting a more productive and ageing society, receiving and integrating migrants, ensuring the sustainability of public finances.

The participants from the Platform AGE reminded the speakers that the responsibility of demographic ageing is not only a task for the Member States and the EU, but also for the vast majority of European Regions that are confronted with a rapid population decline.

The Regions are recommended to offer services that are adapted to the needs of older people, such as accessible public transport, housing and infrastructure, ensuring the quality in health and long term care services, promoting an active citizenship and cross-generational initiatives, increasing social participation and involvement of older people in community life as well as valorising their role as carers for family or relatives.

The E.D.E., as a member of AGE Platform, invites each of its members to make contact with their Regions and remind them of this Hearing at the Committee of Regions in Brussels.

Angela Cluzel is speaking to Androulla Vassiliou, EU Commissioner for Health, and Dr. Judy Triantafyllou, NGO 50plus Hellas, on the occasion of the EU Open Health Forum

## Working group "E.D.E. Missions" finished the proposal

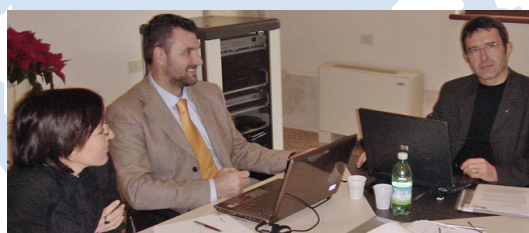

The working group "E.D.E. Missions" finished the work on its proposal for a final document during its last meeting on 16<sup>th</sup> and 17<sup>th</sup> January in Venice.

### The proposal contents 2 chapters:

1. Communication and understanding
2. Useful/actual/concrete support for the members.

The proposal will be presented and discussed at the next General Board meeting in Czech Republic. All the members will get the text of this proposal before the meeting.

The working group members are B. Koprivnikar, J. Bohler, D. Raspini, I. Morandell and W. Schepers.

Irene Morandell, Daniele Raspini, Boris Koprivnikar

**TIME OUT – Doing our work better, faster, cheaper is not good enough any more – we have to stop and find a different way**

The title “TIME OUT” should be understood as a need to stop doing what we have always been doing – always better, faster and cheaper. Just as the environment and the demographic, social and health structure of our societies have changed significantly, we have to change significantly our organization, our services and the management of our employees. We should suggest and persist to change the wider context within which we carry out our work, especially that which limits our professional independency and which allocates our resources for administrative work and thus reducing the value of our service to our clients.
